§ 7502. Declaration of policy

Currentness

The General Assembly finds that:

- (1) The provision of lands for public recreation and conservation of natural resources promotes biological diversity, public health, prosperity and general welfare and is a proper responsibility of government.
- (2) Lands now provided for such purposes will not be adequate to meet the needs of an expanding population in years to come.
- (3) The expansion of population, while increasing the need for such lands, will continually diminish the supply and tend to increase the cost of public acquisition of lands available and appropriate for such purposes.
- (4) Rapid growth and spread of urban development is encroaching upon, or eliminating, many open areas and spaces of varied size and character as well as many sites with important cultural and natural resources. These areas, and spaces and sites, if preserved and maintained in their present open state, constitute important physical, biological, social, aesthetic, recreational or economic assets.
- (5) The State must continue to act act new to protect and to help local governments to protect substantial quantities of such lands as are now available and appropriate so that they may be preserved and developed for the purposes enumerated herein.
- (6) It is the public policy of the State and its political subdivisions that the preservation of open spaces shall be accomplished through the acquisition of interests or rights in real property, or donation of said lands, and that said acquisition constitutes a public purpose for which public funds have been expended or advanced and should be continued.

(b3) The Department, —shall, designate, from the open space lands eligible for inclusion as state resource areas in accordance with subsection (a) of this section, those open space lands that it determines should be included in state resource areas and delineate them on maps ("proposed SRA maps"). The Department shall hold a public hearing, and may hold public workshops in each of the counties of the State of Delaware as a precursor to the public hearing, to receive comments from the public on the proposed SRA maps. After the public hearing, the proposed SRA maps, including any revisions to the same as the result of any recommendations by the Department or the Council, shall be presented by the Department to the Council for review. After such review, the proposed SRA maps shall be prepared by the Department in final form to include revisions, if any, recommended by the Council during its review. Then, the final SRA maps shall, with the approval of a majority of all of the voting members of the Council, be forwarded to the Department with a recommendation for adoption by the Department. The Secretary shall adopt the final SRA maps so forwarded to him or her by the Council.

(c4) The Department shall review the SRA maps atmaps shall be reviewed at least every 10 years, and the SRA maps may be updated by the Department in the Department's discretion. The initial 10 year period shall be measured from the initial adoption of the SRA maps by the Department. The procedure for updating the SRA maps shall be the same as that outlined in this section for their initial adoption by the Department. The Council may, in its discretion and as it deems necessary, requestrequire that the Department review or update the SRA maps at anytime.

(d5) Copies of the SRA maps initially adopted by the Department shall be sent by the Department to the affected county or counties and municipalities for their guidance.

Comment [w2]: Added to address Paul's Concern.

§7507 Evaluation system and acquisition of lands.

(a+) The Council shall develop a system ("evaluation system") to evaluate open space lands being considered for acquisition under the provisions of this ehapterAct. The Council shall review the evaluation system and, after its review and with any changes it approves, the Council shall forward the evaluation system to the Department with a recommendation for adoption. Such recommendation shall require the approval of a majority of all of the voting members of the Council. The Secretary shall adopt the evaluation system recommended to him or her for adoption by the Council. At the discretion of the Council, the evaluation system may be amended from time to time in the same manner as provided herein for its adoption.

(b2) —The Council shall review those lands brought before it by the Department for acquisition and recommend to the Department for acquisition those lands that it determines should be protected and acquired under the provisions of this chapterAct; provided, however, that any lands recommended for acquisition must either (i) be located in a state resource areashown on an adopted SRA map, or (ii) qualify as stand-alone lands and receive a recommendation for acquisition approved by a 2/3rds majority of all the voting members of the Council.

(c3) The Department shall have the authority to acquire lands recommended to it for acquisition according to the provisions of this section.

Currentness							
(a) In furtherance of the purposes of this chapter, the Council shall, in conjunction with the interagency working group, develop and forward to the Department for adoption:							
(1) Standards and criteria consistent with the purposes of this chapter for evaluating the lands and waters of the state for inclusion as state resource areas in the open space program;							
(2) A system for determining the existence and location of state resource areas; their degree of endangerment; an evaluation of their importance; and information related to their natural, historic or open space values;							
(3) A priority ranking system for the acquisition of said lands and waters or rights therein.							
(b) The Department shall carry out the following actions in furtherance of this chapter:							
(1) Designate and adopt state resource areas for inclusion in the open space program. State resource areas shall be shown on maps of sufficient scale to identify individual properties for planning and zoning purposes.							
(2) Update the state resource area maps, in consultation with county governments, at least every 5 years.							
(e) Upon adoption of the state resource area maps the Department shall send copies to the affected county for inclusion in the conservation element of their respective comprehensive plans, and send copies to affected municipalities for inclusion in their respective comprehensive plans. Updated state resource area maps shall also be submitted to said agencies no later than 1 year prior to mandatory comprehensive plan updates as required in the Delaware Code.							
(d) It is the intent of the General Assembly that the Council shall, in conjunction with the Department, analyze the feasibility and advisability of establishing a right of first refusal to purchase any property located within a state resource area. The Council shall propose and recommend to the General Assembly legislation to accomplish the foregoing, after holding public hearings with respect to such proposal.

§ 7508. Land use requirements

Currentness

(a) In order to maintain the protection of the unique ecological functions of state resource areas in a manner consistent with the purposes of this chapter, each county government shall adopt and incorporate overlay zoning ordinances, guidelines and specific technically based environmental performance standards, design criteria and mitigation requirements, where appropriate, that shall apply to significant ecological functions and identified historic and archeological sites on these lands. The guidelines shall designate the boundaries to which they apply and provide a procedure for the appeal of such boundary designations. The zones created hereunder shall overlie and not replace the existing zoning or preclude or prejudice any change thereto. The standards specified in the guidelines shall include, but not be limited to:

- (1) The establishment of frontage, building height, setback and site design requirements that shall apply in state resource areas and which may apply to lands immediately adjacent thereto, which will result in residential, commercial and industrial or other uses which minimize the loss of open space and associated values of state resource area lands.
- (2) The establishment of technically based specific environmental performance standards and design criteria that shall apply in and may apply adjacent to state resource areas in order to protect the values of said lands.

(b) The powers granted counties under Title 9 as they pertain to the protection of any natural feature or resource governed by this title, shall be exercised through the adoption of ordinances and land use requirements duly enacted or approved by the county government of each county. Such natural resource protection requirements shall restrict land use activity by means of enactment and enforcement of specific technically based environmental performance standards, design criteria and mitigation requirements consistent with state law and regulations. Minimum lot sizes, density limitations, and prescribed percentages of impervious surface and use limitations and prohibitions shall not constitute performance standards as required herein, however, such limitations and restrictions shall be adopted where appropriate, to establish an alternative means of complying with the purpose and requirements of the overlay zones. It shall be the option of the owner of land to satisfy either (1) the country environmental performance standards, design criteria and mitigation requirement, or (2) the overlay zoning ordinances where such options are made available. The guidelines, performance standards, design criteria of this subsection shall not apply to lands producing agricultural commodities as defined in Chapter 7 of Title 3 or lands under state agency ownership.

(e) In order to encourage landowners and developers to promote the objectives of this chapter, each county government shall evaluate density bonuses, credits or other incentives and allowances to land owners and developers for lands or resource

protection rights thereto, to encourage the permanent protection of open space and/or any natural resource as governed by this title and elect such measures as they deem appropriate. The counties shall evaluate and consider enactment of measures to allow such bonuses, allowances, incentives and credits to have the ability to be sold, transferred or applied, as a matter of right, to other lands to the maximum density permitted by the applicable zoning classification, so long as such action is consistent with the comprehensive plan of the county.

(d) Counties shall adopt zoning ordinances that enact these guidelines and standards within 18 months after receipt of state resource area maps from the Department. If a county government does not comply with this 18 month enactment requirement, said county shall be ineligible for any funds negotiated for but unexpended under subsection (e) of this section and return to the State an amount equal to Funds expended under an agreement negotiated under subsection (e) of this section.

-

(e) The Secretary shall negotiate an agreement and grant a one time amount of up to \$100,000 to each county to assist with compliance of the requirements in this section.
